But first... let's get to know eachother a bit. 😊

- *My name*
- *What I do*
- *Where I'm from*
- *Fun fact*

CASE STUDY

A student produces an assignment using AI in a very obvious way.

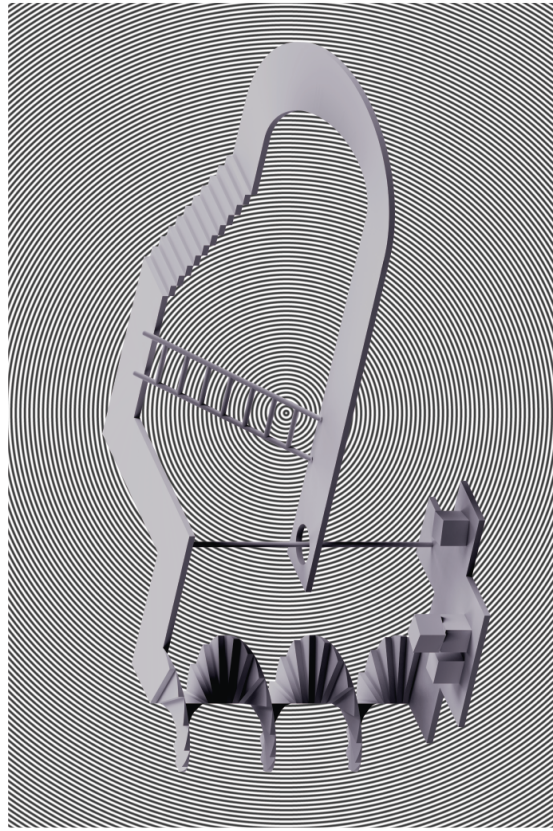

CASE STUDY

My coworkers generate exams using AI.

CASE STUDY

A fellow teacher tells you he no longer makes slides for his classes and instead generates them all with an AI tool.

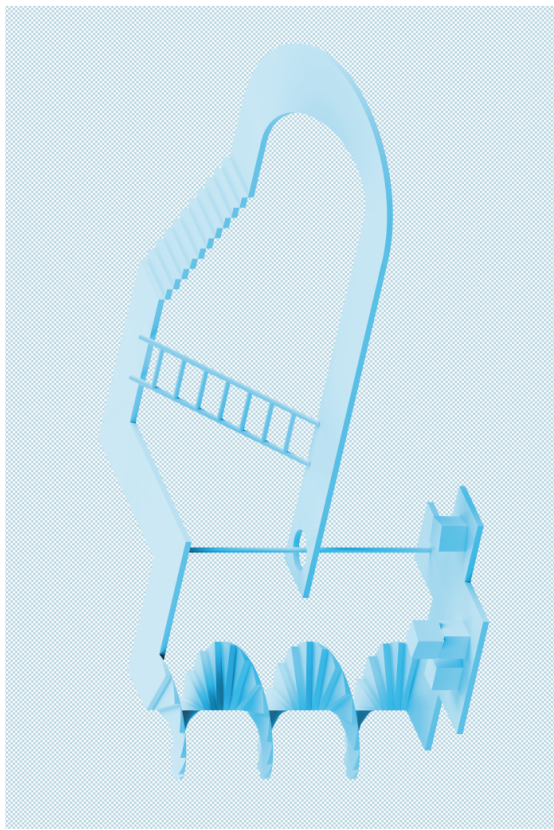

CASE STUDY

When I run the student's assignment through an AI detector, it comes back as 100% AI-generated.

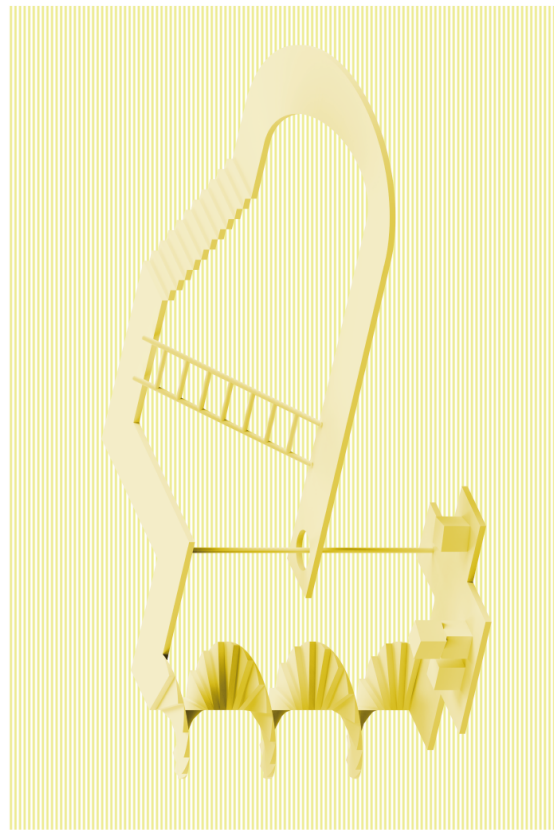

CONFESSION

You might start your intervention with: "I confess that in the past I have..."

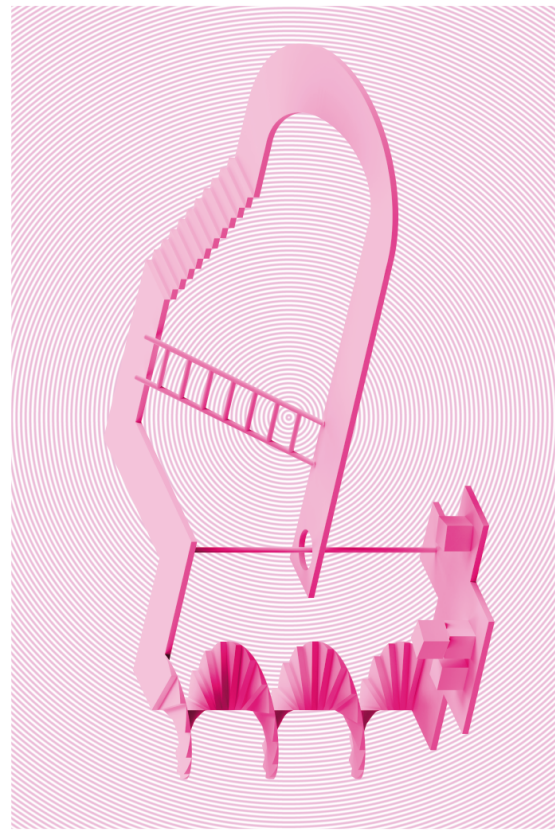

WILD CARD

HOT TAKE
You might start your intervention with: "Unpopular opinion, but I believe that..."

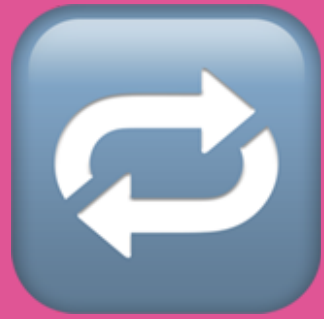

PERSPECTIVE

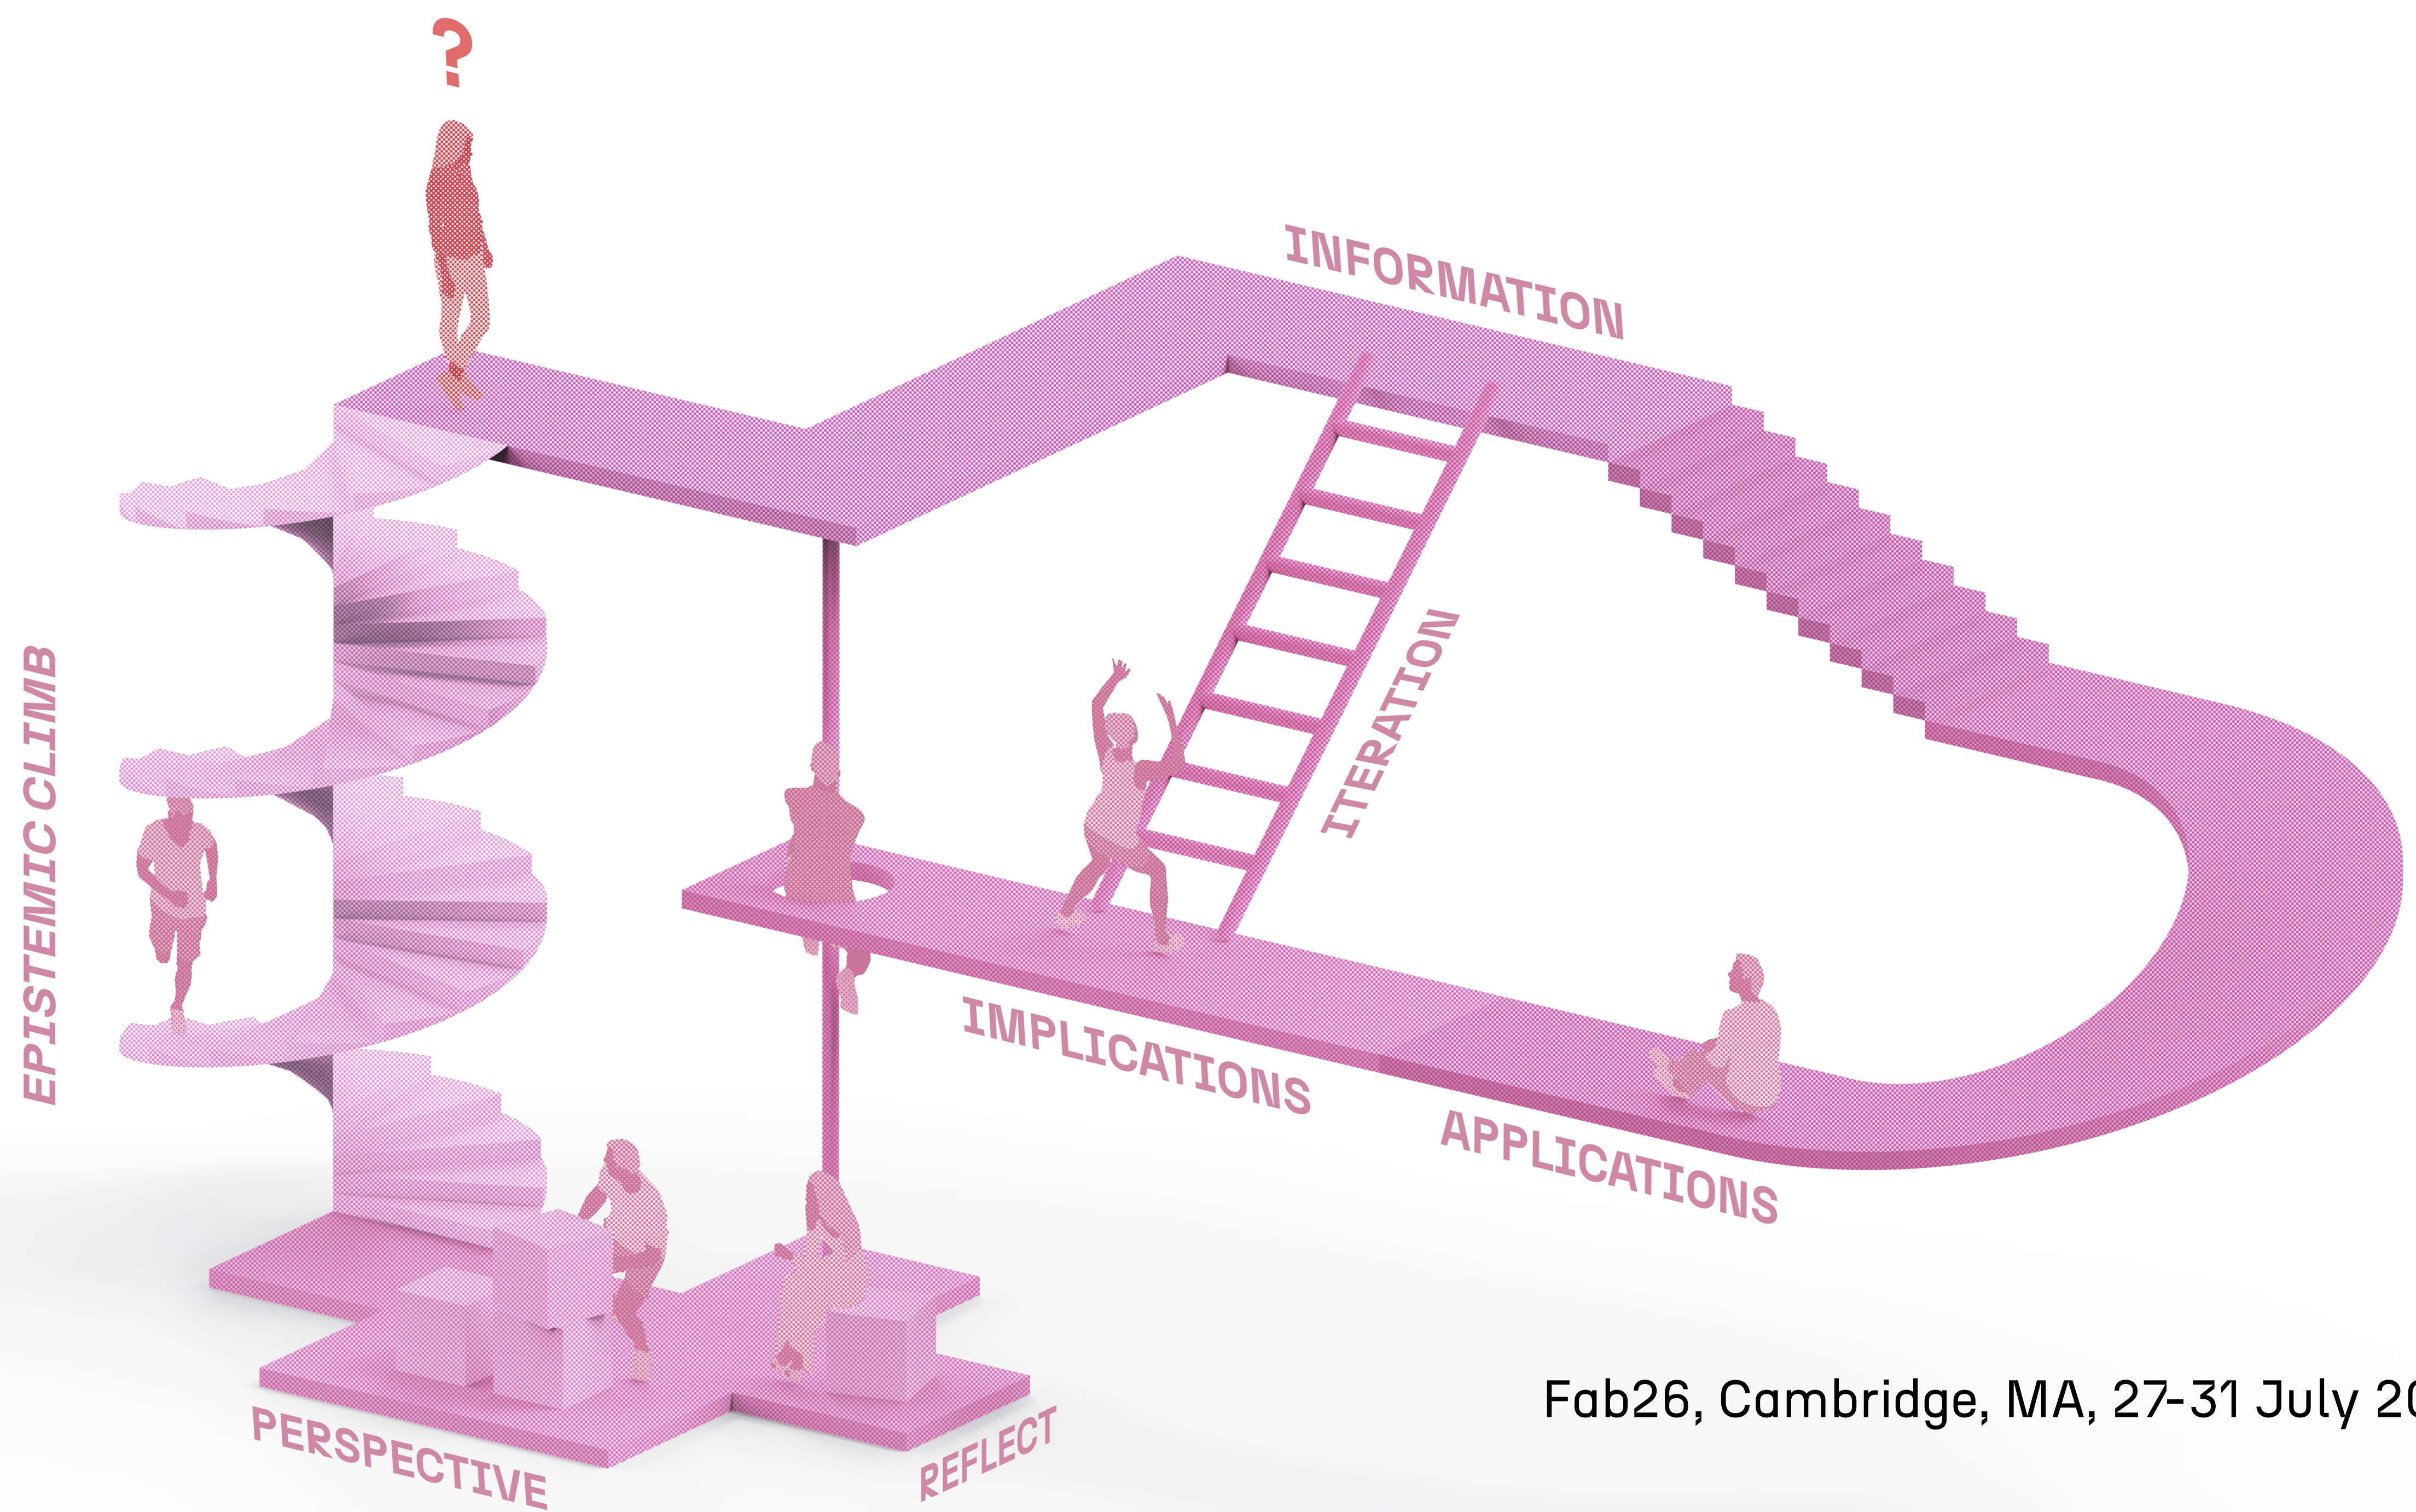

You might start your intervention with: "If I faced this, I would..."

What this is built on:

Our epistemic loop

Suggestions, comments 🤔🧐

Fab26, Cambridge, MA, 27-31 July 2026

**How might we create an alive space
for sharing experiences and good
practices to learn collectively?**

Fab26, Cambridge, MA, 27-31 July 2026

1. Which shape could it take?
2. What would it for sure need to have?
3. what is a no-go?
4. What would it need for people to find it desirable to use it?

Thanks for your contributions!!! 🥰
